**How We Will Calculate Your Balance:** We use a method called "average daily balance (including new purchases)."

Please refer to PAGE 1 for more important information about Your Account

The balances subject to the periodic Finance Charge are the average daily transactions balances outstanding during the month (including new transactions). To get the average daily balance, We take the beginning balance of Your Account each day, add any new purchases, balance transfers, cash advances, debit adjustments or other charges and subtract any payments, credits and unpaid Finance Charges. This gives Us the daily balance. Then, We add up all the daily balances for the billing cycle and divide them by the number of days in the billing cycle. The Finance Charge for a billing cycle is computed by multiplying the average daily balance subject to a Finance Charge by the Monthly Periodic Rate.

You can avoid Finance Charges on purchases by paying the full amount of the entire balance owed each month within 25 days of Your statement closing date. Otherwise, the new balance of purchases, and subsequent purchases from the date they are posted to Your Account, will be subject to a Finance Charge. Balance transfers and cash advances are always subject to a Finance Charge from the later of the date they are posted to Your Account or from the first day of the billing cycle in which the transaction is posted to Your Account.

If You are charged interest, the charge will be no less than \$1.00.

The Index plus the Margin equals the Interest Rate. Changes in the Index will cause changes in the Interest Rate on the 1st day of the billing cycle that immediately follows a change in the Index.
